

## Dilution Control

- Precision dosing systems
- Outstanding solutions
- Ease of installation
- Ease of use
- Reliable and secure

### ProMax and ProMax C

- ProMax and its ProMax C variant, offer the most intuitive and cost effective dispensing system available in the market today
- Available in either 1 or 4 product versions
- Revolutionary patented hydrodynamic technology sets new industry standards of performance and reliability
- Modular and flexible for maximum versatility for Kitchens to Laundry, Janitorial services to Commercial Cleaning
- Efficiently fills small, medium and large containers with accurately diluted use solutions from chemical concentrates
- Outstanding space for personalized branding or customized communication without costly printing minimums and set up charges
- ProMax C certified by all the leading European water authorities
- Flow rate 4 – 30 l/min

### ProDose-R

- Offers easy and affordable control and dilution accuracy for manual warewash detergents and sink sanitizers
- ProDose-R features enhancements including a flexible spout, larger diameter fittings for highly viscous liquids and an improved stroke regulation
- Colour coded cap can be easily removed to allow access to the dosage setting mechanism
- ProDose-R offers up to 6 different dosage settings

### ProSink-R

- Provides high precision dosing for manual warewash in catering environments
- Automatically and consistently mixes the precise amount of detergent and sanitizer with water with the simple twist of a knob
- Tool free maintenance
- 15 different mixing ratios
- Available in either 1 or 2 product versions
- Flow rate 4 – 16 l/min

## Dilution Control

### SekureMax

---

- Modular evolutionary chemical dispensing cabinet
- Semi flat pack design assists transport and storage costs
- Offers secure and precise dilution of cleaning or disinfectant chemicals
- Provides best compromise between accessibility and ease of cleaning
- Large front offers space for customized communication to promote either a brand or health and safety or usage instructions
- Ultimate flexibility, able to hold multiple sizes of chemical container covering 5 litre, 2 x 2 litre, 3 x 1 litre
- Lockable cabinet door provides appropriate level of security

### SekureDose

---

- "ALL IN ONE" system for dosing chemicals in places like hotels, restaurants, schools and offices
- Offers ideal solution for filling spray bottles or buckets to wash floors, counter tops or other hard washable surfaces and for sink filling for pot and pan washing with accurately dosed cleaning solution
- Secure in use, simple tool free installation and flexible, modular design, fast stroke regulation
- No electrical connection or water supply required
- Offers outstanding space for personalized branding or communication customizations without costly printing minimums and set up charges, with user friendly, image enhancing feature
- Colour coded caps for ease of product identification and training

## Cleaning and Disinfection

### JetNeat

---

- Portable low pressure cleaning system, requires no power or air supply, at up to 45°C
- Combines a quick connect spray gun with chemical or disinfectant reservoirs made of durable, chemical resistant plastics
- Large range of metering tips for controlling dilution ratios
- 1.4 and 2.5 litre versions available

### ProFaucet

---

- Easy to operate dosing solution for catering sinks
- Requires no additional plumbing
- Features durable chemical compatible materials
- Flow rate of 20 l/min
